

## Family Group Record Instructions

- 1 Create a separate group record for each family group. If a child listed in the bottom section has a spouse and/or children, he/she should have a have a separate family group record as well. Select File/Save As.. to create additional forms.
- 2 Dates should be listed in either MM/DD/YYYY format or DD MMM YYYYYY format. When using the latter abbreviate the month using the first three letters. Dates should look like either 12/7/1941 or 7 Dec 1941.
- 3 Try to give a location for each date. If possible, specify the county as well as the city (or township) and state. For example: Goshen, Orange, New York.
- 4 Be as complete as possible. However, we realize that not all of this information is readily available. It isn't necessary to have everything filled in. Partial information is much better than no information at all.
- 5  
When complete, save your work, and either print and mail or email to Judy Wood, the Bull Family Genealogist.  
Return to: **Judy Wood** or email: **bullfamilygenealogist@verizon.net**
